## Revenue Estimate Summary

The table below presents the fund level DLGF revenue estimates for each fund in a similar format as the Form 2: Miscellaneous Revenue Estimates. The figures contained in this report are estimates only and are subject to change. Units may use locally calculated estimates instead of the values below.

*In addition to the revenues identified on this report, taxing units should also estimate other revenues that they may receive locally in order to provide a complete picture of the revenues available to support their budgets. The Department continues to emphasize the importance of units routinely monitoring their miscellaneous revenue estimates as compared to actual collections as the actual amounts become available.*
