

Dear School Board Members,

Attached is a list of filmstrips that our school no longer uses. I have emailed our teachers about this and received positive responses. I posted this list in our library and confirmed they are no longer used.

Upon your approval, Mr. Spradley's advanced applications computer class has agreed to sell these items on ebay for our library. This class does a project of this nature every year.

Please consider approving the sale of these items. I would like to purchase items our school would actually use with this money. Thank you in advance for your time.

Sincerely,

Laura Nurrenbern
