Additional Requirements for Students with Disabilities

During the student's annual case review held when a student with a disability is enrolled in 8th grade, the case conference committee shall review and discuss with the student's parent (and the student, if appropriate):

- A. the types of designations available for the high school diploma students may receive in the State of Indiana;
- B. the course requirements for each type of designation; and
- C. employment and career options for the student and the type of academic, technical, and vocational preparation necessary to achieve the employment or career.

The student's IEP must include the type of designation for the diploma the student will seek and courses that will allow the student to progress toward the diploma in a timely manner.

Beginning in grade 9 and in addition to the annual case review, the student's teacher of record shall communicate at least once each grading period with the student's parent concerning the student's progress toward the diploma with the selected designation. If the parent requests a meeting with the teacher of record to discuss the student's progress, the teacher must meet with the parent in a timely manner. Such a meeting does not constitute a case conference committee meeting, and a request for such a meeting does not abrogate a parent's right to call for a meeting of the case conference committee at any time.

Each student is required to meet:

- A. the academic standards tested in the graduation examination;
- B. the course and credit requirements adopted by the IDOE;
- C. additional graduation requirements established by the Board provided, however, that the Board shall not require students with disabilities to meet requirements that exceed those required by State law.

Upon the request of the student's parents, the student may be exempted from the Core 40 curriculum requirements and be required to complete the general curriculum to graduate as required by State law. Also, school officials may initiate a discussion with the parents about exempting a student from the Core 40 curriculum if the student does not pass at least three (3) courses required under the Core 40 curriculum or if the student scores in the twenty-fifth percentile or lower the first time the student takes the graduation exam. If the parent makes the decision to exempt the student from the Core 40 requirements, the student will be required to complete the general curriculum as required by State law.

Commencement exercises will include those students who are eligible for a diploma, ~~or~~ certificate of achievement, or certificate of course completion as certified by the high school principal. No student who has completed the requirements for graduation shall be denied a diploma as a disciplinary measure. A student may be denied participation in the ceremony of graduation when personal conduct so warrants.

NOTE: DENYING PARTICIPATION IN COMMENCEMENT EXERCISES TO SPECIAL EDUCATION STUDENTS WHO HAVE COMPLETED THEIR PROGRAM VIOLATES 511-I.A.C. 7-27-9(b).
